

Artù F1

Middle-earling maturing

HR: ToMV; Vd; Fol 0, Fol 1.
IR: TYLCV; Ma, Mi, Mj.

130 g

5,5 x 9 cm

Elongated tomato variety San Marzano type, with indeterminate plant ideal for single fruit harvesting (red and/or salad type). Artù F1 fruit qualifies itself with strong and regular shiny green (even the red version's colour is maintained strong and homogeneous). Weight around 120 gr. (0,26 pound), 8.5-9 cm. (3.3-3.5 inches) in length, 5.5 cm. (2.1 inches) in diameter. Other important traits are the lack of green collar, a high shelf life (LSL), a high tolerance against apex rotting process and above all, San Marzano's specific great taste. The plant is very rustic with high stamina, it shows covering foliage during summer and short internodes. Lastly, it maintains an excellent blossoming even in the upper part.
