230 g

Calibro G

Variety of determined limbed tomato destined to fresh market and to be harvested individually. It is characterized by a round shape fruits typical to the beef segment, it has 230 grams of weight, gauge G. Normally it has a deep green color that becomes bright red when ripe. It shows, in addition, a green collar slightly marked: GB. It is characterized by a high post-harvest shelf life (Long Shelf Life), an excellent flavor and the high quality of the fruit typical of the beef. During the cycle, the fruits presents a marked uniformity. Plant has a medium vigor and it is very opaque, for open field cultivation. Moreover, it has a good leaf coverage of the fruit, a considerable productivity and a high potential of setting during the period of high temperatures.
