160 g.

5,5 x 10 cm

Indefinite tomato from greenhouse of the oblong type, for harvest to green / red cluster and/or single fruit. Of intense green colour without collar (UG), with weight of 160 g., around 5 cm of diameter and 9 cm of length. Tall taste and excellent Long Shelf Life in picked post, to the maximum levels of market. Intense and bright colour to red. Raised resistance to the rottenness apical. Of tall middle vigour, quite a lot airy and with short and regular internodes also in the tall parches, Very rustic, he suits well for the autumn transplantations and the long cycle of the Sicilian crops. Rise productivity.
