40 g

3,5 x 5,5 cm

Indefinite tomato from greenhouse, with form type vesuviano for harvest to red cluster. Of bright red colour, it has a weight of 40 gr around 3.5 cm of diameter and 5.5 cm of length. Introduces a big rachides of intense green colour. Raised taste and excellent Long Shelf Life in picked post, to the maximum levels of market. Of middle vigour, quite a lot airy and with short and regular internodes also in the tall stages. Very rustic, he suits well for the autumn transplantations, to the long cycle and it bears well the low temperature in cold greenhouse. High Productivity.
