## Informazioni tecniche

PRODUCTIVITY

RUSTICITY

QUALITY

Processing tomato variety of baby plum tipology. The plant is strong, compact and rustic. It is very adaptive to several different climatic conditions also in hot season. The fruit quality is excellent and reach 9-10°Brix with an average weight of 14-15g. The color is deep red and the skin is quite thin even if it guarantee excellent shelf firmness during the mechanical harvesting and good LSL.
