SAN MARZANO

Medium early

HR: ToMV; TSWV; Vd, Fol
IR: Ma, Mi, Mj; TYLCV

160-180 g

5 x 10 cm

Indeterminate tomato from greenhouses and open fields (net tents), of the San Marzano type for harvesting in green / red bunches and / or single fruit. Deep green collarless (UG), weighing approximately 170 g, 5 cm in diameter and 10 cm in length. Very uniform and with an intense and bright red color, it is characterized by an excellent Long Shelf Life in post harvest, at the highest levels of the market. It has a high resistance to apical rot, and a Mediterranean flavor typical of the San Marzano type. Medium-high vigor, quite airy and with short and regular internodes even in high boxes. Very rustic, it adapts well to autumn transplants and the long cycle of Sicilian crops. High productivity, at the highest levels of the market.
